

# INDEPENDENT AUDITOR'S REPORT ON SPECIAL PURPOSE STANDALONE FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 MARCH 2022

To the Members of Fusion BPO Services Philippines, Inc. Report on the Audit of the Special Purpose Financial Statements

### Opinion

We have audited the accompanying Special purpose standalone financial statements of Fusion BPO Services Philippines, Inc. ("the Company"), which comprise the Special Purpose Balance Sheet as at March 31, 2022, Special Purpose Standalone Statement of Profit and Loss (including Other Comprehensive Income), Special Purpose Standalone Statement of Changes in Equity and Special Purpose Standalone Statement of Cash Flows for the year then ended, and notes to the Special Purpose Standalone financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, and to the best of our information and according to the explanations given to us, the accompanying Special Purpose Standalone Financial Statements of the Company for the year ended 31 March 2022 are prepared in all material respects, in accordance with the note 2.1 on basis of accounting.

### **Basis for Opinion**

We conducted our audit in accordance with the Standards on Auditing ("SAs") specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Special Purpose Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Emphasis of matter-Basis of Accounting and Restriction on Distribution and Use

We draw attention to Note 2.1 to the Special Purpose Standalone Financial Statements which describe the purpose and basis of its accounting. These Special Purpose Standalone Financial Statements have been prepared by the management of the Company solely for the purpose of preparation of the restated financial information of the Company for the year ended 31 March 2021 to be included in the Draft Red Herring Prospectus ("DRHP"), Red Herring Prospectus ("RHP") and Prospectus (collectively referred to as "Offer Documents") to be filed by the Company with the Securities and Exchange Board of India ('SEBI'), National Stock Exchange of India Limited and BSE Limited, Registrar of Companies, as applicable, in connection with the proposed Initial Public Offering of equity shares ('IPO') of the Company, as per the requirements of Section 26 of Part I of Chapter III of the Companies Act, 2013, the Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018, as amended from time to time ("SEBI ICDR Regulations"), e-mail dated 28 October 2021 from Securities and Exchange Board of India (SEBI) to Association of Investment Bankers of India ('SEBI Communication') and the Guidance Note on Reports in Company Prospectus (Revised 2019) ("the Guidance Note") issued by the Institute of Chartered Accountants of India ('ICAI'). As a result, these Special Purpose Standalone Financial Statements may not be suitable for any other purpose.

Our report is intended solely for the purpose specified above. This should not be distributed to or used by other parties. M S K C & Associates LLP (formerly known as M S K C & Associates) shall not be liable to the Company or to any other concerned for any claims, liabilities or expenses relating to this assignment. Accordingly, we do not accept or assume any liability or any duty of care for any other purpose or to any other person to whom this report is shown or into whose hands it may come without our prior consent in writing. Lodha

Our opinion is not modified in respect of the above matter.

# AGARWAL LODHA & CO Chartered Accountants

### **Key Audit Matters**

In accordance with SA 701, we have determined that there are no key audit matters to communicate in our report as the Company is an unlisted entity.

# Responsibilities of Management and Those charged with Governance for the Special Purpose Standalone Financial Statements

Management is responsible for the preparation and fair presentation of the special purpose financial statements in accordance with the basis of accounting described in Note 2.1, and for such internal control as management determines is necessary to enable the preparation of special purpose financial statements that are free from material misstatement, whether due to fraud or error.

The Board of Directors of the company is responsible for overseeing the financial reporting process.

### Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the special purpose financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. The scope of the audit includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

### Other Matter

The Company has prepared a separate set of Financial Statements for the year ended 31 March 2022 in accordance with the Accounting Standards notified under Section 133 of the Act, read together with the Companies (Accounting Standards) Rules, 2021 and other accounting principles generally accepted in India, were audited by us and whose report dated 26<sup>th</sup> March 2025 expressed an unmodified opinion.

These Special Purpose Standalone Financial Statements for the year ended 31 March 2022 has been prepared by the management of the Company in accordance with the basis stated in Note 2.1 to the Special Purpose Standalone Financial Statements and approved by the Board of Directors of the Company solely for the purpose of preparation of Restated Consolidated Financial Information to be included in the Offer Documents in connection with the proposed initial public offering of equity shares of the Company. Accordingly, the management has not presented the corresponding comparative figures in these Special Purpose Standalone Financial Statements.

### Report on Other Legal and Regulatory Requirements

Since the Company is incorporated outside India, this report does not include reporting on matters specified under the Companies Act, 2013. However, we have considered applicable provisions relevant to the DRHP and SEBI (ICDR) Regulations, 2018 as amended.

Fusion BPO Services Philippines, Inc. Summary of material accounting policies and other explanatory information for the year ended 31 March 2022 (All amounts in IRIX, unless otherwise stated)

Corporate information (Philippines ("the Company") was incorporated on October 6, 2009, and is domiciled in Philippines. The principal place of business is located in Philippines. The Company is primarily engaged in the provision of Business Process Outsourcing (BPO), Information Technology (IT), and Information Technology (IT),

### 2 Material accounting policies

### 2.1 Basis of preparation

### (a) Statement of Complia

Statement of Compliance with Indian Accounting Standards (Ind AS)
These special purpose financial statements have been prepared in accordance with the Indian Accounting Standards ('Ind AS') as notified by Ministry of Corporate
Affairs ('MCA') under Section 133 of the Companies Act, 2013 ('Act') read with the Companies (Indian Accounting Standards) Rules, 2015, as amended and other relevant provisions of the Act.

The special purpose financial statements up to year ended 31 March 2021 were prepared in accordance with the accounting standards notified under the Section 133 of the Act, read together with paragraph 7 of the Companies (Accounts) Rules, 2014 ("Indian GAAP" or "Previous GAAP"). These special purpose financial statements for the year ended 31 March 2022 are the first set of financial statements prepared in accordance with Ind AS. The date of transition to Ind AS is 01 April 2021 (hereinafter referred to as the "transition date").

The special purpose financial statements for the year ended 31 March 2022 and the opening Balance Sheet as at 01 April 2021 have been restated in accordance with Ind AS for comparative information. Reconciliations and explanations of the effect of the transition from Previous GAAP to Ind AS on the Balance Sheet, Statement of Profit and Loss (including Comprehensive Income) and Cash Flow Statement are provided in Note 5.

Accounting policies have been consistently applied to all the years presented except where a newly issued accounting standard is initially adopted or a revision to an existing accounting standard requires a change in the accounting policy thereto in use.

These special purpose financial statements were approved for issue in accordance with a resolution of the directors on 26 March 2025.

The Guidance Note on Division II - Schedule III to the Companies Act, 2013 issued by the Institute of Chartered Accountants of India ("ICAI") has been followed in

Basis of measurement
These special purpose financial statements have been prepared on accrual basis and under historical cost convention, except for the following:

Certain financial assets and liabilities measured at fair value (refer accounting policy on financial instruments)
Historical cost is generally based on the fair value of the consideration given in exchange for goods and services. Fair value is the price that would be received to

fer a liability in an orderly transaction between market participants at the measurement date.

The Company has consistently applied the following accounting policies throughout the periods presented in these financial statements.

Current versus non-current classification

The Company presents assets and liabilities in the balance sheet based on current/ non-current classification. An asset is treated as current when it is:

Expected to be realised or intended to be sold or consumed in normal operating cycle

Expected to be realised or intended to be sold or consumed in normal operating cycle

Held primarily for the purpose of trading

Expected to be realised within twelve months after the reporting period, or

Cash or cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period

All other assets are classified as non-current.

A liability is current when:

It is expected to be settled in normal operating cycle

It is held primarily for the purpose of trading

It is due to be settled within twelve months after the reporting period, or

There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period. The terms of the liability that could, at the option of the counterparty, result in its settlement by the issue of equity instruments do not affect its classification. The Company classifies all other liabilities are classified as non-current.

Deferred tare assets and liabilities are classified as non-current.

Deferred tare assets and liabilities are classified as non-current.

Perferred tare assets and liabilities are classified as non-current.

Perferred tare assets and liabilities are classified as non-current.

Perferred tare assets and liabilities are classified as non-current.

Perferred tare currency and counting off

Presentation currency and cruding off

Presentation currency and rounding off
These special purpose financial statements are presented in Indian Rupees (INR) and all values are rounded to nearest lakhs, unless otherwise indicated.

Going Concern
The Company has prepared the special purpose financial statements on the basis that it will continue to operate as a going concern.

### (f) Use of estimates

Use or estimates
The preparation of financial statements in conformity with Ind AS requires the Management to make estimate and assumptions that affect the reported ar
of assets and liabilities as at the Balance Sheet date, reported amount of revenue and expenses for the year and disclosures of contingent liabilities as at

balance sneet case. The estimates and assumptions used in the accompanying financial statements are based upon the Management's evaluation of the relevant facts and circumstances as at the date of financial statements. Actual results could differ from these estimates. Estimates and underlying assumptions are reviewed on a periodic basis. Revisions to accounting estimates, if any, are recognized in the year in which the estimates are revised and in any future years affected. Refer Note 3 for details on estimates and judgments.

# (g) Operating Cycle

Operating cycle is the time between the acquisition of assets for processing and their realizationin cash or cash equivalents. The Company has ascertain edits operating cycle being a period of 12months for the purpose of classification of assets and liabilities into current and non-current. Accordingly, current assets do not include elements which are not expected to be realised within 12 months and current liabilities donot include items where the Company does not have an unconditional right to defers ettlement beyond a period of 12months , the period of 12 months being reckoned from the reporting date.

### Recent accounting pronouncements

Recent accounting pronouncements
Ministry of Corporate Affairs ("MAC") notifies new standards or amendments to the existing standards under Companies
(IndianAccountingStandards)Rulesasissuedfromtimetotime.As at 31 March 2022, MCA has not notified any new standards or amendments to the existing standards applicable to the Company

Property, plant, and equipment
Property, plant and equipment, are stated at historical cost of acquisition or construction less accumulated depreciation and impairment losses, if any. The cost of property, plant and equipment comprises its purchase price net of any discounts and rebates, any import duties and other taxes (other than those subsequently recovered from the tax authorities), any directly attributable expenditure on making the asset ready for its intended use.

Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced, All other repairs and maintenance or revenue nature charged to Statement of Profit and Loss during the reporting year in which they are incurred.

Property, plant and equipment are tested for impairment whenever events or changes in circumstances indicate that an asset may be impaired. If an impairment loss is determined, the remaining useful life of the asset is also subject to adjustment. If the reasons for previously recognised impairment losses are longer exists, such impairment losses are reversed and recognised in income. Such reversal shall not cause the carrying amount to exceed the amount that would have resulted had no impairment taken place during the preceding periods.

Property, plant and equipment not ready for the intended use on the date of Balance Sheet are disclosed as "Capital work-in-progress". Such items are classified to the appropriate category of Property, plant and equipment when completed and ready for intended use. Advances given towards acquisition/construction of Property, plant and equipment outstanding at each Balance Sheet date are disclosed as Capital Advances under "Other non-current assets".

On transition to Ind AS, the Company has elected to continue with the carrying value of all of its property, plant and equipment recognized as at 1 April 2022 measured as per the Indian GAAP and use that carrying value as the deemed cost of the property, plant and equipment.

### Depreciation method, estimated useful lives and residual value

Depreciation method, estimated useful lives and residual value
Depreciation is provided for property, plant and equipment on a straight-line basis so as to expense the cost less residual value over their estimated useful lives as
prescribed in Schedule II of the Companies Act, 2013. The estimated useful lives and residual values are reviewed at the end of each reporting period, with the
effect of any change in estimate accounted for on a prospective basis.
Depreciation on sale/disposal of property plant and equipment is provided up to the date preceding the date of sale/disposal as the case may be. Gains and losses
on disposals are determined by comparing the sale proceeds with carrying amount and accordingly recorded in the Statement of Profit and Loss during the
reporting year in which they are sold/disposed.

### The estimated useful lives are as mentioned below

Asset	Useful life
Computer	3 - 6
Furniture and fixtures	10
Office equipment	5
Server	3 - 6
Plant and equipment	15
Leasehold improvement	3
Vehicle	8
Electrical installations	10

ets acquired separately are measured on initial recognition at cost. Following initial recognition, intangible assets are carried at cost less any amortisation and accumulated impairment losses. The useful lives of all the intangible assets of the Group are assessed as finite.

On transition to Ind AS, the Group has elected to continue with the carrying value of all of its intangible assets recognised as at 1 April 2022 measured as per the Previous GAAP and use that carrying value as the deemed cost of the intangible assets.

Asset	Useful life	
Customer List	5 years	
Computer Software	3 - 5 years	

Intangible assets with finite lives are amortised over the useful economic life and assessed for impairment whenever there is an indication that the intangible asset may be impaired. The amortisation period and the amortisation method for an intangible asset with a finite useful life are reviewed at least at the end of each reporting period. The amortisation expense on intangible assets with finite lives is recognised in the statement of profit and loss unless such expenditure forms part of carrying value of another asset.

An intangible asset is derecognised upon disposal (i.e., at the date the recipient obtains control) or when no future economic benefits are expected from its use or disposal. Any gain or loss arising upon derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the statement of profit and loss when the asset is derecognised.

# 2.2 Summary of material accounting policies (cont'd) (c) Leases

Identifying leases The Company asse The Company assesses at contract inception whether a contract is or contains a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease contracts entered by the Company majorly pertains for premises and equipment taken on lease to conduct its business in the ordinary course.

Company as a lessee
On 1 April, 2022, the Company had adopted Ind AS 116 "Leases" using the modified retrospective approach by applying the standard to all leases existing at the date of initial application. The Company also elected to use the recognition exemption for lease contracts that, at the commencement date, have a lease term of twetve months or less and do not contain a purchase option ("short-term leases") and lease contracts for which the underlying asset is of low value ("low value assets"). The Company recognises lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use assets
The Company recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the

The right-of-use assets are also subject to impairment. Refer to the accounting policies in section 2.2(d) "Impairment of non-financial assets".

Lease liabilities
At the commencement date of the lease, the Company recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the tease return, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

Short-term leases and leases of low-value assets
The Company applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term
of 12 months or less from the commencement date and do not contain a purchase option), it also applies the lease of low-value assets recognition exemption to
leases of office equipment that are considered to be low value. Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Impairment of non financial assets
The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or group of assets. When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be dientified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's CGUs to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year. To estimate cash flow projections beyond periods covered by the most recent budgets /forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the Company operates, or for the market in which the asset is used.

Impairment losses are recognised in the Statement of profit and loss,

Investments in subsidiaries
Investments which are readily realizable and intended to be held for not more than one year from the date on which such investments are made, are classified as current investments. All other investments are classified as long-term investments. Investments are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable.

On initial recognition, all investments are measured at cost. The cost comprises purchase price and directly attributable acquisition charges such as brokerage, fees and duties. If an investment is acquired, or partly acquired, by the issue of shares or other securities, the acquisition cost is the fair value of the securities issued. If an investment is acquired in exchange of another asset, the acquisition is determined by reference to the fair value of the asset given up or by reference to the fair value of the investment acquired, whichever is more clearly evident.

### 2.2 Summary of material accounting policies (cont'd)

Current investments are carried in the financial statements at lower of cost and fair value determined on an individual investment basis. Long-term investments are carried at cost. However, provision for diminution in value is made to recognize a decline other than temporary in the value of the investments.

On disposal of an investment, the difference between its carrying amount and net disposal proceeds is charged or credited to the Statement of Profit and Loss.

### Classification in the financial statements

striction in the marical seaternents.

Striction in the marical seaternents are strictly as a strict of the strict of the striction in the parameter of the striction in the parameter of the striction in the str

Cash and cash equivalents

Cash and cash equivalents includes cash in hand, deposits held at call with banks, other short term highly liquid investments with original maturities of three months or less.

### Share Capital

inter Capital
Financial Instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial
asset. The Company's ordinary shares are classified as equity instruments.

(i) Initial recognition and measurement

At initial recognition, financial asset is measured at its fair value plus the transaction cost directly attributable to the acquisition of the financial asset in the case of a financial asset measured not at fair value through profit or loss. Transaction costs of financial assets carried at fair value through profit or loss are expensed

(ii) Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in following categories:

a) at amortized cost; or

b) at fair value through other comprehensive income; or

c) at fair value through profit or loss.
The classification depends on the entity's business model for managing the financial assets and the contractual terms of the cash flows.

The Company does not hold any Pinancial assets classified at fair value through other comprehensive income; or at fair value through profit or loss. Accordingly, the Company holds only financial assets measured at amortised cost, therefore accounting policy of financial assets classified at amortised cost stated below:

Amortized cost: Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest are measured at amortized cost. Interest income from these financial assets is included in finance income using the effective interest rate method (EIR).

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the Statement of profit and loss.

Impairment of financial assets In accordance with Ind AS 109 "Financial Instruments", the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

of the change in the change in the change of the change of

### b) Other financial assets:

For recognition of impairment loss on financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. If credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk has increased significantly, interiment ECL is used. If in subsequent years, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12 month ECL.

Lifetime ECL is the expected credit loss resulting from all possible default events over the expected life of a financial instrument. The 12 month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after year end.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all cash flows that the entity expects to receive (i.e. all shortfalls), discounted at the original effective interest rate (EIR). When estimating the cash flows, an entity is required to consider all contractual terms of the financial instrument (including prepayment, extension etc.) over the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the

ECL impairment loss allowance (or reversal) recognized during the year is recognized as income/expense in the Statement of Profit and Loss. For financial assets measured at amortised cost. ECL is presented as an allowance, i.e. as an integral part of the measurement of those assets in the Balance Sheet. The allowance reduces the net carrying amount. Until the asset meets write off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

(iv) Derecognition of financial assets
A financial asset is derecognised only when:

A financial abset to unrecognised only when:
a) the contractual rights to receive cash flows from the financial asset is transferred or expired.
b) retains the contractual rights to receive the cash flows of the financial asset, but assumes a contractual obligation to pay the received cash flows in full without material delay to one or-more recipients.

Where the financial asset is transferred then in that case financial asset is derecognised only if substantially all risks and rewards of ownership of the financial asset is transferred. Where the entity has not transferred substantially all risks and rewards of ownership of the financial asset, the financial asset is not

Where the financial asset is neither transferred, nor the entity retains substantially all risks and rewards of ownership of the financial asset, then in that case financial asset is derecognized only if the Company has not retained control of the financial asset, the retained control of the financial asset, the asset is continued to be recognised to the extent of continuing involvement in the financial asset. In that case, the Company also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Company has retained.

On derecognition of a financial asset, the difference between the carrying amount and the consideration received is recognised in the Statement of Profit and

An instruments issued by a Company are classified as either financial liabilities or as equity in accordance with the substance of the contractual arrangements and the definitions of a financial liability and an equity instrument.

the definitions of a financial inability and an equity instruments. Equity instruments
An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by
the Company are recognised at the proceeds received, net of direct issue costs.
Repurchase of the Company's own equity instruments is recognised and deducted directly in equity. No gain or loss is recognised in Statement of Profit and Loss
on the purchase, sale, issue or cancellation of the Company's own equity instruments. Dividend paid on equity instruments are directly reduced from equity.

Financial liabilities
Initial recognition and measurement
Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss or at amortized cost, as appropriate.
All financial liabilities being loans, borrowings and payables are recognised net of directly attributable transaction costs.

ent of financial liabilities depends on their classification, as described below:

The measurement of financial liabilities depends on their classification, as described below:
Financial liabilities at amortised cost
Financial liabilities at fair value through profit or loss
Financial liabilities at fair value through profit or loss
The Company does not owe any financial liability which is either classified or designated at fair value though profit or loss. Accordingly, the Company holds only financial liabilities designated at amortised cost, therefore accounting policy of financial liabilities classified at amortised cost stated below:

### Financial liabilities at amortised cost

rinancial leadings at amortised cost admires and the subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in the Statement of Profit and Loss when the liabilities are derecognised as well as through the EIR amortization process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the Statement of Profit and Loss.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the Statement of Profit and Loss as finance costs.

Offsetting financial instruments
Financial assets and liabilities are offset and the net amount is reported in the Balance Sheet where there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the assets and settle liabilities simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Company or the counterparty.

Financial instruments issued by the Company are classified as equity only to the extent that they do not meet the definition of a financial liability or financial asset. The Company's ordinary shares are classified as equity instruments.

### (k) Fair value measurement

Fair value measurement
A number of assets and liabilities included in the Company's financial statements require measurement at, and/or disclosure of, fair value.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement data. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either:

In the principal market for the asset or liability, or

In the absence of a principal market, in the most advantageous market for the asset or liability accessible to the Company.

The Company uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximizing the use of relevant observable inputs and minimizing the use of unobservable inputs.

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorized within the fair value hierarchy, described as follows, based on the lowest level input that is significant to the fair value measurement as a whole:

Level 1 — Quoted (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 — Qualation techniques for which the lowest level input that is significant to the fair value measurement is directly or indirectly observable

Level 3 — Valuation techniques for which the lowest level input that is significant to the fair value measurement is unobservable

# 2.2 Summary of material accounting policies (cont'd) (I) Provisions, Contingent liabilities and Contingent Assets

Provisions are recognised only when there is a present obligation, as a result of past events, and when a reliable estimate of the amount of obligation can be made at the reporting date. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. Provisions are discounted to their present values, where the time value of money is material.

A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that probability will not require an outflow of resources or where a reliable estimate of the obligation cannot be made. Contingent assets are neither recorded nor disclosed in the financial statements.

(m) Revenue from contract with customers

Revenue is recognized to the extent, that it is probable that the economic benefits will flow to the Company and the revenue can be reliably measured.

Revenue from services

The Company's revenue from Business Process Management is recognized on an accrual basis in terms of agreement with the customer(s), when there is no uncertainty as to the measurement and collectability of consideration. In case of uncertainty, revenue recognizion is postponed until the same is resolved. Revenue is recognized on satisfaction of performance obligation upon transfer of control of promised services to customers in an amount that reflects the consideration the Company expects to receive in exchange for those services. Revenue is measured based the transaction price (which is the consideration, adjusted to discounts, incentives and returns, etc., if any) that is allocated to that performance obligation. These are generally accounted for as variable consideration estimated in the same period the related sales occur. The revenue is recognized net of Goods and service tax.

Interest Income from Bank Deposits
Interest income is accrued on a time proportion basis by reference to the principal outstanding and the effective interest rate.

Dividend is recognized when the Company's right to receive dividend is established.

### (n) Earning per Share

Larning per share (EPS) is calculated by dividing the net profit or loss attributable to equity holders of the company (after deducting preference dividends and attributable taxes) by the weighted average number of equity shares outstanding during the period. For the purpose of calculating diuted earnings per share, the net profit or loss for the period attributable to equity shareholders of the Company and the weighted average number of shares outstanding during the period are adjusted of the effects of all dilutive potential equity shares.

### (o) Employee benefits

(i) Short-term employee benefits
Liabilities for wages and salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the year in which the employees render the related service are recognized in respect of employees' services up to the end of the year and are measured at the amounts expected to be paid when the liabilities are settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

(ii) Other long-term employee benefit obligations
The Company is incorporated and operates outside India and hence is governed by the financial reporting framework and statutory requirements applicable in its

As per the applicable local laws and financial reporting framework, there is no requirement to recognize certain long-term obligations (e.g., gratuity, leave encashment, retirement benefits, etc.) which are typically mandated under Indian statutory requirements such as the Payment of Gratuity Act, 1972 or the Accounting Standards like Ind AS 19

Accordingly, such long-term obligations have not been recognized or provided for in the financial statements of the Company. This accounting treatm compliance with the applicable local reporting framework.

accordingly, such long-term obligations have not open recognized or provided for in the financial statements of the Company. This accounting treatment is in compliance with the apolicable local reporting framework.

Defined contribution plans A defined contribution plans is a post-employment benefit plan where the Company's legal or constructive obligation is limited to the amount that it contributes to a separate legal entity. The Company makes specified monthly contributions towards Government administered provident fund scheme and Employees' State Insurance ("ESI") scheme. Obligations for contributions to defined contribution plans are expensed as an employee benefits expense in statement of profit and loss in the period in which the related services are rendered by employees.

Defined Benefit Plans
A defined benefit plan is a post-employment benefit plan other than a defined contribution plan. The Company's net obligation in respect of defined benefit plans is calculated separately for each plan by estimating the amount of future benefits that employees have earned in the current and prior periods, discounting that amount. The defined benefit obligation is calculated annually by a qualified actuary using the projected unit credit method.

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognised immediately in OCI. They are included in retained earnings in the Statement of changes in equity and in the balance sheet. The Company determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate determined by reference to market yields at the end of the reporting period on government bonds. This rate is applied on the net defined benefit liability (asset) during the period as a result of contributions and benefit payments. Net interest expense and other expenses related to defined benefit plans are recognised in profit or loss. Changes in the present value of the defined benefit obligation resulting from plan amendments or curtailments are recognised immediately in profit or loss as past service cost.

Compensated absence - Encashaore
The liabilities for earned leave and sick leave that are not expected to be settled wholly within 12 months are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of the reporting period using the projected unit credit method. The benefits are discounted using the discount rates for Government Bonds at the end of the reporting period that have terms approximating to the terms of the related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in the Statement of Profit and Loss.

### 2.2 Summary of material accounting policies (cont'd)

Share based payments
Share-based compensation benefits are provided to employees via the "Xplore Employee Stock Option Plan 2023" (ESOP scheme) of the Parent Company. The fair value of options granted under the ESOP scheme is recognised as an employee benefits expense with a corresponding increase in equity in the books of its parent company. The total amount to be expensed is determined by reference to the fair value of the options granted
- including the impact of any service and non-market performance vesting conditions (e.g. profitability, sales growth targets and remaining an employee of the

- entity over a specified time period), and
- including the impact of any non-vesting conditions (e.g. the requirement for employees to serve or hold shares for a specific period of time).

The total expense is recognised over the vesting period, which is the period over which all of the specified vesting conditions are to be satisfied. Out of the total expenses incurred by its parent company the expenses incurred on behalf of Canada is billed as expenses and is taken as expenses by Canada.

(p) Taxes
Tax expense for the period comprises of current tax, deferred tax and Minimum alternate tax credit (Wherever applicable).

Provision for current tax is made on the basis of estimated taxable income for the current accounting year.

Current tax assets and current tax liabilities are offset when there is a legally enforceable right to set off the recognized amounts, and there is an intention to settle the asset and the liability on a net basis.

The deferred tax for timing differences between the book and tax profits for the year is accounted for, using the tax rates and laws that have been substantively

Deferred tax charge or credit reflects the tax effects of timing differences between accounting income and taxable income for the period. The deferred tax charge or credit and the corresponding deferred tax liabilities or assets are recognized using the tax rates that have been enacted or substantively enacted by the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the assets can be realized in future; however, where there is unabsorbed depreciation or carry forward of losses, deferred tax assets are recognized only if the a virtual certainty of realization of such assets. Deferred tax assets are recognized only if there is virtual certainty of realization of such assets. case may be) to be realized

At each reporting date, the Company reassesses the unrecognized deferred tax assets, if any

(q) Borrowing Costs
Borrowing cost includes interest, amortization of ancillary costs incurred in connection with the arrangement of borrowings and exchange differences arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing costs that are directly attributable to the acquisition, construction or production of an asset that takes a substantial period of time to get ready for its intended use are capitalized. All other borrowing costs are recognised as expenditure in the period in which they are incurred.

### 3 Critical accounting estimates and assumptions

Critical accounting estimates and assumptions. The key assumptions concerning the future and other key sources of estimation uncertainty at the year end date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the special purpose financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising that are beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

(a) Useful lives of property, plant and equipment and intangible assets

As described in the material accounting policies, the Cumpany reviews the estimated useful lives of property, plant and equipment and intangible assets at the
end of each reporting period. Useful lives of intangible assets is determined on the basis of estimated benefits to be derived from use of such intangible assets.

These reassessments may result in change in the depreciation /amortization expense in future periods.

### (b) Impairment of non-financial assets

In assessing impairment, management estimates the recoverable amount of each asset or cash-generating units based on expected future cash flows and uses an interest rate to discount them. Estimation uncertainty relates to assumptions about future operating results and the determination of a suitable discount rate.

### (c) Contingencies

Management judgement is required for estimating the possible outflow of resources, if any, in respect of contingencies/ claim/ litigation against Company as it is not possible to predict the outcome of pending matters with accuracy.

Provisions are recognised in the period when it becomes probable that there will be a future outflow of funds resulting from past operations or events that can reasonably be estimated. The timing of recognition requires application of judgement to existing facts and circumstances which may be subject to change. The litigations and claims to which the Company is exposed are assessed by management and in certain cases with the support of external specialised lawyers.

Income taxes

Management judgment is required for the calculation of provision for income taxes and deferred tax assets and liabilities. The Company reviews at each balance sheet date the carrying amount of deferred tax assets. The factors used in estimates may differ from actual outcome which could lead to significant adjustment to the amounts reported in the financial statements.

The Company evaluates if an arrangement qualifies to be a lease as per the requirements of Ind AS 116. Identification of a lease requires significant judgement. The Company evaluates it an arrangement quarties to be a lease as per the requirements or ind As 1 is. Identification or a lease requires significant judgement in assessing the lease term (including anticipated renewals) and the applicable discount rate. The Company determines the lease term as the non cancellable period of a lease, together with both periods covered by an option to extend the lease if the Company is reasonably certain to exercise that option; and periods covered by an option to terminate the lease if the Company is reasonably certain not to exercise that option. In assessing whether the Company is reasonably certain to exercise that option, in assessing whether the Company is reasonably certain to exercise an option to extend the lease, or not to exercise that create an economic incentive for the Company to exercise the option to extend the lease. The Company reviews the lease term if there is a change in the non-cancellable period of a lease. The discount rate is generally based on the incremental borrowing rate specific to the lease being evaluated or for a portfolio of leases with similar characteristics.

Changes in accounting policy and disclosures
The Ministry of Corporate Affairs has notified Companies (Indian Accounting Standards) Amendment Rules, 2023 dated 31 March 2022 to amend the following Ind
As which are effective for annual periods beginning on or after 1 April 2023. The Company has applied these amendments for the first-time in these special purpose financial statements.

Disclosure of Accounting Policies - Amendment to Ind AS 1 Presentation of financial statements
The amendments aim to help entities provide accounting policy disclosures that are more useful by replacing the requirement for entities to disclose their 'significant' accounting policies with a requirement to disclose their 'materialt' accounting policies and adding guidance on how entities apply the concept of materialty in making decisions about accounting policy disclosures. accounting policies with a requirement to disclosures.

In making decisions about accounting policy disclosures,
ments have had an impact on the disclosures of accounting policies, but not on the measurement, recognition or presentation of any items in the

(b) Definition of Accounting Estimates - Amendments to Ind AS 8 Accounting policies, changes in accounting estimates and errors. The amendment to Ind AS 8, which added the definition of accounting estimates, clarifies that the effects of a change in an input or measurement technique are changes in accounting estimates, unless resulting from the correction of prior period errors. These amendments clarify how entities make the distinction between changes in accounting estimate, changes in accounting estimate, changes in accounting estimates are applied prospectively to future transactions and other future events, but changes in accounting policies are generally applied retrospectively to past transactions.

and other past events as well as the current period.

The amendments are not expected to have a material impact on these financial statements.

(c) Deferred Tax related to Assets and Liabilities arising from a Single Transaction - Amendments to Ind AS 12 Income taxes

The amendments narrow the scope of the initial recognition exception under Ind AS 12, so that it no longer applies to transactions that give rise to equal taxable and deductible temporary differences such as leases.

The Company previously recognised for deferred tax on leases on a net basis. As a result of these amendments, the Company has recognised a separate deferred tax asset in relation to its lease liabilities and a deferred tax liability in relation to its right-of-use assets. Since, these balances qualify for offset as per the requirements of paragraph 74 of Ind AS 12, there is no impact in the balance sheet. There was also no impact on the opening retained earnings as at 1 April 2022.

0.1 Recent pronouncements Ministry of Corporate Affairs ("MCA") notifies new standards or amendments to the existing standards under Companies (Indian Accounting Standards) Rules as issued from time to time. For the year ended March 31, 2022, MCA has not notified any new standards or amendments to the existing standards applicable to the Company.

First-time adoption of Ind-AS
These special purpose financial statements are the first set of Ind AS financial statements prepared by the Company. Accordingly, the Company has prepared financial statements which comply with Ind AS applicable for year ending on 31 March 2023, together with the comparative year data as at and for the year ended 31 March 2022, as described in the material accounting policies as applicable. In preparing these financial statements, the Company's opening balance sheet was prepared as at 1 April 2022, being the Company's statutory date of transition to Ind AS.

Exemptions availed on first time adoption of Ind AS Ind AS 101. First-time Adoption and Certain optional exceptions from the retrospective application of certain requirements under Ind AS. The Company has accordingly applied the following exemptions.

Optional

Deemed Cost of property plant and equipment and intangible assets

Ind AS 101 permits a first time adopter to elect to continue with the carrying value for all its property, plant and equipment as recognised in the financial
statement as at the date of transition to Ind AS, measured as per the previous GAAP and use that as its deemed cost as at the date of transition. This exemption
can also be used for intangible assets covered by Ind AS 38 Intangible Assets. Accordingly, the Company has elected to measure all of its property, plant and
equipment and intangible assets at their previous GAAP carrying value.

### Mandatory Exceptions on first-time adoption of Ind AS

Estimates

An entity's estimates in accordance with Ind A5 at the date of transition to Ind A5 shall be consistent with estimates made for the same date in according an entity's estimates where it is objective evidence that those estimates were in error.

Indian GAAP (after adjustments to reflect any difference in accounting policies), unless there is objective evidence that those estimates were in error.

Ind AS estimates as at 1 April 2022 are consistent with the estimates as at the same date made in conformity with Indian GAAP. The Company made estimates for following items in accordance with Ind AS at the date of transition as these were not required under Indian GAAP:

(i) impairment of financial assets based on expected credit loss model.

(ii) FYTPL - debt securities

(iii) Effective interest rate used in calculation of security deposit.

Derecognition of financial assets and financial liabilities
Ind AS 101 requires a first time adopter to apply the derecognition provisions of Ind AS 109 prospectively for transactions occurring on or after the date of
transition to Ind AS. Accordingly, the Company has applied the derecognition requirement for financial assets and financial liabilities in Ind AS 109 prospectively
for transactions occurring on or after date of transition to Ind AS.

Classification and measurement of financial assets Ind AS 101 requires an entity to assess classification and measurement of financial assets on the basis of facts and circumstances that exist on the date of transition to Ind AS. Accordingly, the Company has applied the above requirement prospectively.

### 6 Right to use and Lease Liabilities

The Company has leasing arrangements for a number of properties in the jurisdictions from which it operates. In some jurisdictions it is customary for lease contracts to provide for payments to increase each year by inflation and in others to be reset periodically to market rental rates. In some jurisdictions, for property leases the periodic rent is fixed over the lease term. These leases have terms ranging from two to ten years. The Company applies the recognition exemptions relating to short-term leases and lease of low-value assets for these leases.

The weighted average incremental borrowing rate applied to lease liabilities as at 31 March 2022 is 10%.

The Company provides Gratuity for employees in India in Philippines as per Retirement Pay Law (R.A. 7641). All employees are entitled to gratuity benefits on exit from service due to retirement, resignation or death. There is a vesting period of 5 years on exits due to retirement or resignation. This defined benefit plans expose the Company to actuarial risks, such as longevity risk, interest rate risk and market (investment) risk. The present value of the defined benefit obligation and the relevant current service cost are measured using the Projected Unit Credit Method, with actuarial valuations being carried out at each Balance sheet date. This is an unfunded plan.

**Regulatory Risk:** Gratuity benefit is paid in India in Philippines as per Retirement Pay Law (R.A. 7641)(as amended from time to time). There is a risk of change in regulations requiring higher gratuity payouts (e.g. Increase in the maximum limit
